2. The following wire has been received from SPO:

[ ] has requested permission to use the anechoic chamber on the EA6 program on a strict non-interference basis. The EA6 program will add about \$1,000 of instrumentation which will not affect our usage. We have no objections.

Also [ ] is sending an unsolicited proposal to [ ] which if bought would require use of the 3200 computer. The usage again would be on a non-interference basis and would be reimbursed at a rate of \$100 an hour to be credited to our program. Again we have no objections."

3. This office does not have any objections either.
